METAL MARKETS ARE FIRM AND UNCHANGED

Absence of Cables From London Leaves the Quotations Without Variation.

New York ... COPPER. New York Exchange .. \$18.62%@18.87% LEAD. New York Exchange \$5.75@6.00

NEW YORK, Sept. 15.—The tin market was unchanged in the absence of cables with prices more or less nominal around \$39.65 bid to \$40.00 asked. Copper was firm with lake quoted at \$13.00@19.25; electrolytic, \$18.87 1/2@19.12 1/2 and casting at \$18.62 1/2@18.87 1/2.

Lead was firm at \$5.75@6.00 and spelter at \$6.15@6.25.

Iron was reported in fair demand at

Clearing House Statement.

NEW YORK, Sept. 15 .- The statement of the clearing-house banks for the week shows that the banks hold \$3,536,400 more than the legal reserve requirements. This is an increase of \$10,114,325 as compared with last week.

The statement follows:

Loans, \$1,036,460,400; decrease, \$15,813,-Deposits, \$1,005,487,600; decrease, \$8,-Circulation, \$44,888,800; decrease, \$29,-

Legal tenders, \$77,541,800; decrease, Specie, \$177,366,500; increase, \$8,024,900. Reserve, \$254,908,300; increase, \$7,932,-

Reserve required, \$251,371,900; de-crease, \$2,181,625. Surplus, \$3,536,400; increase, \$10,114,-Ex United States deposits, \$7,952,500;

ncrease, \$11,950,350.
The Financier says this week: week's official statement of the New York associated banks realized the expectations that were entertained of a restoration that were entertained of a restoration in the surplus reserve, but it was disappointing in that it did not fully reflect the increase in cash which was confidently looked for as the result of the advances made by the treasury to gold importing banks in order to facilitate importations of the metal, or the increase in cash which was due to the arrivals of gold from Europe during the week. The statement showed a gain of The statement showed a gain of \$7,932,700 cash, whereas the most con-servative estimates that were based upon traceable movements of money indiated an increase of not less than \$10,-

The discrepancy between the estimated and the officially reported gain cannot be satisfactorily explained. It is note-worthy, however, that the increase in cash very closely corresponds with the augmentation in public deposits, which was \$7,844.100, probably showing that the was \$7.344.100, probably showing that the week's advances by the treasury then to assist gold imports were largely counted as public funds; this may indicate one reason for the above-noted discrepancy, assuming that the balance of the money advanced by the treasury was treated otherwise than as a deposit.

General deposits last week were reduced \$8,726,500, which amount is greater by 1 1-3 millions than the sum of

er by 1 1-3 millions than the sum of the decrease in loans less the gain in cash; therefore the statement did not prove. The required reserve against such deposits was \$2,181,625, adding which to the gain in cash made \$10,114,which to the gain in cash made \$10,114,325 as the increase in surplus reserve to \$3,536,400, thus fully restoring this item, which in the previous week showed a deficiency of \$6,577,325. Computed upon the basis of deposits, less those of \$17,684,400 public funds, the surplus is \$7,567,500. Loans were contracted by \$15,313,700, making \$27,279,200 for the fortnight, in which period, it may be noted, deposits were reduced \$36,569,600. This contraction in loans relieves the liquidation in the stock market, which was almost continuous and the result of the strained monetary situation, especially in

the week of September 8. New York Money.

NEW YORK, Sept. 16.—Money on call nominal. No loans. Time leans dull, but strong. Sixty and ninety days and six months, 66614 per cent.

Prime mercantile paper, 66614 per cent.

Sterling exchange steady, with actual business in bankers' bills at \$4.83.90@ 4.84 for demand, and at \$4.80.20@4.80.25 for sixty day bills.

Posted rates, \$4.81@4.81% and \$4.84%.

Commercial bills, \$4.79%@4.80.

Mexican dollars, 52%c. Government bonds steady; railroad bonds firm.

Imports and Exports.

NEW YORK, Sept. 15.—Total imports of merchandise and dry goods at the port of New York for the week ending today were valued at \$12,179,008.

Total imports of specie at the port of

New York for the week ending today, \$18,400 silver and \$3,046,429 gold. Total imports of specie from the port of New York for the week ending today were \$713,503 silver and \$12,000 gold.

St. Louis Wool. ST. LOUIS, Sept. 15.—Wool steady; medium grades combing and clothing, 23@ 28c; light fine, 18@22c; heavy fine, 14@ 20c; tub washed, 22@38c.

POTATOES STILL GOING UPWARD

They Are Now Practically Beyoud the Purse of Majority of Consumers.

TOMATOES TAKE A TUMBLE ON TOBOGGAN

Sugar Was Stationary, Failing to Either Advance or Recede.

As was expected potatoes took another jump upward on the market yesterday. The price now asked for them is \$1 wholesale, or \$1.10 retail. Farmers were wholesale, or \$1.10 retail. Farmers were able to get almost any price they wanted for the spuds yesterday morning, and the retailers who were able to get any of them were considered lucky. Many of the stores are reported to be without potatoes of any kind. Some of the farmers vertex are reported to sell. portates of any kind. Some of the far-mers yesterday morning refused to sell their potatoes unless the purchaser also bought his load of watermelons or peaches. What potatoes there were were covered with mud and were in bad shape. The rain has stopped the digging of them and the prospects are that by Monday, when the markets are opened the price of spuds will be beyond reach of the maof spuds will be beyond reach of the ma-

jority of consumers.

Tomatoes also took a long jump yesterday. They went up to \$1.25 a bushel, which price puts them out of the market for canning purposes. They went up to \$1 wholesale, and it was almost impos-sible for dealers to secure any even at

California Bellflower apples made their initial appearance on the market yester-day and sold for \$1.75 a crate. The Bell-flowers this season are exceptionally good in quality, being of a good size and generally free from worms. It is stated that they will be very abundant during the season and will get very reasonable in

It was expected that sugar would advance in price again Saturday, as it has during the last three days, but both the cane and the beet variety failed to move either in the wholesale or the retail mar-kets. It is thought now by the merchants that the price will remain at the present point for a few days and will then retreat back over a little of the ground gained during the last three days. during the last three days.

Alberta peaches are stacking up on the local market in great abundance. They are for the most part coming in from Brigham City, and they are this year of an exceptionally fine flavor and of good size and quality. Reports from Brigham City are to the effect that all the farmers are getting busy with the picking of their peaches. At least 100 car loads will be shipped from there this week and a large

number of these will come to Salt Lake.

In the fish market yesterday the only
change was the arrival of a consignment of extra-select oysters from New York. This variety has been on the market for about two weeks this season, but they have been very scarce. It is reported that they will be more abundant from now on: The poultry market is reported to be rather alim, it being hard to secure poul-try of any kind.

FIRMER TONE IN THE CHICAGO WHEAT PIT

Wet Weather in Northwest and Forecast of Large Export Shipment the Cause.

CHICAGO, Sept. 15.—Wet weather in the Northwest and the forecast of large export shipments were the chief causes for a firm wheat market here today. At the close December wheat was 140 4c higher, corn was down 140 14c. Oats were unchanged to a shade lower. Provisions were unchanged to 5c lower.

were unchanged to 5c lower.

The wheat market opened firm despite a decline of ½ pence at Liverpool because of wet weather in the Northwest, which is expected to interfere with the movement of the crop, and additional reports of disappointing results from threshing operations.

During the day prices declined slightly because of realizing sales, but later became firm on the statement of an English

came firm on the statement of an English statistician that the world's shipments will amount to about 10,000,000 bushels, with this country supplying about one-half of the total exports. The clearances of wheat and flour were large and this held the market ateady to some extent.

The fluctuations of the day were within a narrow range and the close was firm. December wheat opened unchanged to a shade higher at 73% to 73% @73%c, sold between 73%@73%c and 73%c and closed %@%c bigher at 73% @73%c.
